Workshop Strands

This year's conference theme centers around "*Student Voices Hold Power!*" The following are the Workshop Strands for this year's conference.

Student Leadership
The SSCCC integrates leadership training and networking opportunities for our students. Programs across the state support student leadership groups. These student leaders are doing a broad range of initiatives and activities on their campuses to build community and foster student success. These workshops will focus on how student leaders are developing themselves and the activities and strategies they are using on their campuses.

Using your Student Voice
The SSCCC is the official voice as recognized by the Board of Governors, legislature, Chancellor's Office, and other stakeholders for more than 2.1 million students on California community college. Legislative advocacy is one of the SSCCC pillars to use our voice. These workshops should empower students to use their voice to influence policy, educate stakeholders, and inform constituents of those issues that impact higher education and students in particular.

Fundraising
The SSCCC and its regions need resources to continue to advocate for students statewide. Students have limited resources to spend on legislative activities and fundraising can provide necessary resources. These workshops will provide students with tips and resources to hold fundraising activities and events.

Accessing Resources for Student Success
The SSCCC advocates for a number of issues related to student success including homelessness, basic needs, housing, and other community resources students need to be truly successful in completing their education. However, students have limited knowledge about how to leverage these resources to help their fellow students and community. These workshops will share how students identify resources, communicate them throughout the college and community, as well as how to ensure all students have access.
